

Wag'n Tails

Modern Mobile Clinics for Modern Veterinarians

THE WAG'N TAILS ADVANTAGE

From planning to launch, we're with you at every stage of opening your mobile clinic.

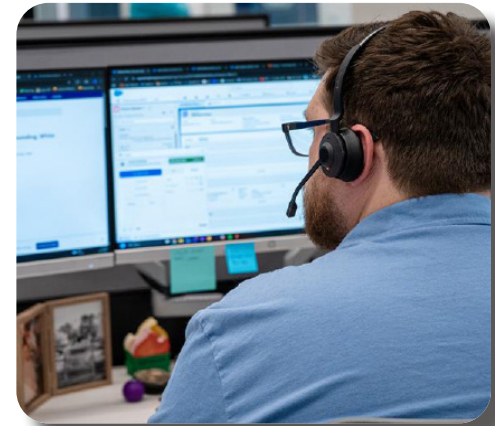

Van & Equipment Selection Guidance

Our mobile consultants work side-by-side with you to decide which van and equipment are best for your business goals, ensuring that you have the necessary tools to deliver optimal care.

Business Startup Help

As your van is being built, our team will provide you with a six-month Veterinary Growth Partners membership, giving you access to business coaching, profit-maximizing resources, and more.

Dedicated Customer Care Team

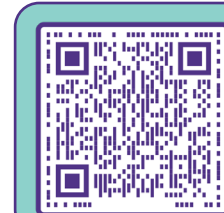

After your van is completed, our Customer Care team is here to support you with in-person and digital orientations, live video calls, maintenance resources, and more.

Purpose-Built Vans for Veterinarians Redefining How Care Is Delivered

- Compatible with all types of veterinary practice including surgery, radiology, and general medicine
- Multiple van sizes and layout configurations
- Easy to operate, battery-powered clinic area
- Medical-grade design and finish for a professional appearance

Mobile Vet Care: More Impact, More Income

The mobile veterinary industry is expanding rapidly, presenting an opportunity for veterinarians to earn more while gaining more control of their career. With more pet owners seeking convenient, personalized care, mobile vets can provide premium services while increasing revenue, client satisfaction, and work-life balance.

Mobile Pet Care Market Size (USD Billions)

Improve Your Quality of Life

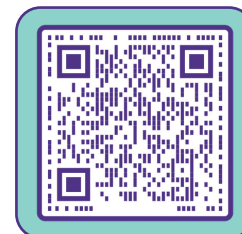

“Mobile positions allow veterinarians to take control of their career in ways often not permitted in traditional associate positions. Improved work-life balance and flexible hours... offer a way to address current retention struggles within veterinary medicine.”

— Kogan, L.R., & Rishniw, M. (2023).
Journal of the American Veterinary Medical
Association.

Explore Your Potential Income

Want a breakdown of your profit potential that is tailored towards your desired workload, location, and professional and personal goals?

Check out our personalized calculator:

*Monthly expenses calculated using nationwide average cost of vehicle and generator fuel, maintenance, vehicle payment, insurance, supplies, phone, advertising, and veterinary technician salary.

SIMPLIFIED PURCHASE PROCESS

Step 1

Consultation and Personalization

Choose between a variety of clinic models and premium equipment tailored to meet your medical and business needs.

Step 3

Lender Approval

Once your loan is approved, we'll review terms, collect your deposit, and send a sales order for e-signature.

Step 5

Transport or Pickup

We'll arrange van transport or pick-up, and provide either an in-person or virtual orientation .

Step 2

Pre-Approval

We'll review your credit and match you with the best lender. As an authorized upfitter, we can combine the chassis and upfit into a single loan.

Step 4

Finalize the Purchase

Our dealer will finalize terms, offer warranty options, send the finance agreement, and we'll provide resources to help you get started.

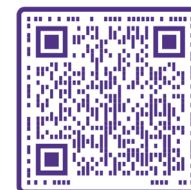

Step 6

We'll be there to support you through the process with our expert customer care team, ongoing business consultation through Veterinary Growth Partners, and our Wag'n Tails App, which offers helpful guidance and instructions.
